

Mohanna Shirnegar

Cybersecurity Specialist | Backend Developer | Penetration Tester

mohann.shirnegar@gmail.com | +98 921 535 9918 | Kermanshah, Iran | [linkedin.com/in/mohanna-shirnegar](https://www.linkedin.com/in/mohanna-shirnegar) | github.com/mohanna2020

Professional Summary

Cybersecurity-focused Backend Developer with hands-on experience in penetration testing tools and network security. Proficient in ethical hacking methodologies including CEH-level techniques, vulnerability assessment using Nessus, network scanning with Nmap, exploitation frameworks (Metasploit/Armitage), and web application security testing with Burp Suite. Strong backend development foundation with Node.js, REST APIs, and database management. Passionate about identifying security vulnerabilities and applying secure development practices.

Cybersecurity Skills & Tools

Penetration Testing & Ethical Hacking

- Nessus – Intermediate (Vulnerability Scanning)
- Wireshark – Intermediate (Network Monitoring)
- Nmap – Network Discovery & Port Scanning
- Armitage – Graphical Cyber Attack Management
- Burp Suite – Web Application Security Testing (Basic)
- CEH Methodologies & Network Penetration Testing

Backend Development & Networking

- Node.js – Advanced
- REST API – Intermediate
- Linux – Intermediate
- Network+ – Intermediate
- MongoDB | PostgreSQL | SQL Server

Work Experience

Web Developer – Marsib

Dec 2024 – Jan 2025 |
Kermanshah, Iran

- Developed backend web application features using Node.js and REST API principles
- Collaborated on secure application architecture and API endpoint design
- Worked in a team environment following agile development workflows

Secretary & Office Manager – Public Services Office

Mar 2025 – Jul 2025 |
Kermanshah, Iran

- Managed civil registry services including national ID, birth certificate, and SIM card processes
- Handled sensitive citizen data with strict confidentiality and data privacy compliance
- Coordinated municipal and insurance service workflows for public-facing operations

Education

Bachelor of Science – Computer Engineering

2019 – 2023

Kermanshah University of Technology | GPA: 17.96 / 20

Security Certifications & Training

Certified Ethical Hacker (CEH) – Course	2025 learnfiles.com (25h)
Network Penetration Testing	2025 learnfiles.com (10h)
Node.js – Advanced Course	2024 Rocket (7h)
Node.js – Full Course	2022 Maktabkhooneh (19h)

Node.js – Video Chat Room Project	2021 Faradars (2h)
Python – Fundamentals	2020 Amirkabir University of Technology (30h)

Projects

Social Media (Photo Sharing) Web Application	2023
Built full-stack photo sharing platform with Node.js backend and REST API	
Hotel Reservation Web Application	2023
Developed reservation system with user authentication and database management	
Online Psychology Test Platform	2023
Created online test platform with real-time result processing and scoring logic	

Additional Technical Skills

Languages	JavaScript (Intermediate) Python (Basic) TypeScript (Basic)
Frontend	HTML & CSS (Intermediate)
Databases	MongoDB (Intermediate) PostgreSQL (Intermediate) SQL Server (Basic)
OS & Tools	Linux (Intermediate) Microsoft Word/Excel/PowerPoint (Advanced)
CRM	Familiar with CRM systems
English	Upper Intermediate
